## Shrewsbury 2030 Strategic Plan:

In January of 2023, after an almost year long process, the Shrewsbury Select Board approved the Shrewsbury 2030 Strategic Plan. The Strategic Plan aims to align the desires of the community with the work of the Town as an organization - making community engagement and feedback critical to this document being successful.

"How is this work going to be implemented?" - was the most common question we received during this process. The budget process for Fiscal Year 2024 was centered around the Strategic Plan and the community feedback that came from it.
